PROJECTS

MESCOE Alumni Portal

Group | Nov 2019 - Jan 2020

Portal for MESCOE Alumni to allow alumni to connect and help each other while allowing them to stay updated. All alumni can post any internship or job and they can connect classmate on the portal.

Tech: JavaScript, Bootstrap, HTML, CSS.

Burger Builder Application

Personal | Apr 2020 - May 2020

In this application users can customize their own burgers. It's a **Single Page Application** created using React. To optimize application I used **Lazy Loading**.

Tech: ReactJS, Firebase, JavaScript, HTML, CSS.

Student List

Personal | July 2020

Project contains a student list that can add, remove, edit student data. Data will be sent using axios and build a RESTful api using expressJS that handles data coming from the frontend and handles functionality like edit, remove, add students data in the database.

Tech : NodeJS, ExpressJS, ReactJS, MongoDB, HTML, CSS.
